PROFESSIONAL SUMMARY

Full-stack software developer with experience in JavaScript, React, Node.js, Python, and Supabase. Builds clean, efficient, user-friendly applications with strong attention to detail and accuracy. Brings a background of leadership, documentation, data handling, and customer interaction.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL

Frontend: React, Vite, HTML, CSS

Backend: Node.js, Express

Databases: Supabase, PostgreSQL

Tools: Git, GitHub, VS Code, Postman

Concepts: REST APIs, CRUD operations, Authentication, State Management, Debugging, Agile

Additional: High-accuracy data entry, documentation, customer communication

PROJECTS

HouseIQ -- AI-Powered Home Management Platform

- Built a full-stack web application for homeowners to manage maintenance, assets, projects, documents, and home knowledge.
- Developed an AI assistant using semantic search and OpenAI embeddings to answer questions about a specific home.
- Implemented secure authentication with Auth0, private AWS S3 document storage, and CockroachDB for multi-user data management.
- Designed REST APIs and AI-powered document processing to automatically extract actionable tasks, assets, and issues from uploaded files.

MedBridge -- AI-Powered Patient Health Companion

- Developed backend APIs for a healthcare application that provides AI-assisted health insights.

- Built secure FastAPI endpoints, integrated Supabase authentication and storage, and implemented row-level security for patient privacy.
- Designed RESTful APIs and database models supporting medical records, dashboards, health profiles, and document management.
- Collaborated in an Agile team using GitHub, pull requests, code reviews, and sprint-based development.

FamilyFlow -- Intelligent Family Planning Application

- Developed a full-stack application that recommends activities based on children's ages, weather, location, budget, and family preferences.
- Built AI-assisted recommendation workflows and structured data models for activities, itineraries, and saved favorites.
- Implemented responsive React interfaces and REST APIs to create personalized family outing plans.
- Focused on user experience, search performance, and scalable application architecture.

NurseryConnect -- Garden Center Online Ordering System

- Designed a full-stack inventory and ordering platform for garden centers managing rapidly changing live plant inventory.
- Built flexible inventory management capable of handling seasonal availability and frequently changing stock levels.
- Developed customer ordering workflows, searchable product catalogs, and administrative inventory tools.
- Applied firsthand horticulture industry knowledge to create workflows matching real retail and nursery operations.

TECH EXPERIENCE

Full-Stack Developer — Coding Temple (2025-2026)

- Built multiple full-stack applications using React, Python, and JavaScript.
- Designed REST APIs, authentication flows, and database schemas.
- Completed high-volume assignments requiring accuracy.
- Collaborated in Agile workflows using Git/GitHub.

WORK EXPERIENCE

DIGS Garden Center — Garden Center Associate (2024–2025)

- Maintained inventory logs with consistent accuracy.
- Assisted customers and solved issues clearly.
- Organized stock workflows to improve efficiency.

Cox's Plant Farm — Nursery Technician (2022–2024)

- Recorded growth and scheduling data precisely.
- Followed structured workflows requiring consistency.
- Supported operations with organization and accuracy.

KAD Contracting — Installer & Client Support (2020–2022)

- Performed measurement-accurate installations.
- Documented job requirements clearly.
- Ensured error-free material handling.

DePauw University — Landscaping Assistant Supervisor (2015–2020)

- Led crews on recurring tasks requiring consistency.
- Documented progress and task assignments.
- Enforced safety protocols and quality checks.

EDUCATION

Full Stack Software Engineering Bootcamp — Coding Temple

DePauw University — Three years of coursework

Ivy Tech — Horticulture & Garden Design

Greencastle High School
